VOLUME 24

TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, AUGUST 11th, 1916

NUMBER 25

## NEWPORT

Thursday evening on Bay Beach the citizens of Newport gave a clam-bake, not a lunch, as previously stated in these items. The menu consisted of ten bushels of clams, 30 dozen crabs, 400 pounds of beef, three sacks of potatoes, three dozen salmon and kelp, five thousand sandwiches, forty pounds of coffee, twenty pounds of sugar and five gallons of cream. The coffee was fine and was prepared by the ladies. The clams, crabs, fish and beef and potatoes were all put in one pit and baked together—being done by Mr. Frey and Mr. Tozer. The baking was done to perfection. The flavor of all the different articles was kept intact. It was the best clam-bake ever given in Newport, much credit being due the people who were in charge of it. The committee had prepared for about fifteen hundred people but that number was more than doubled. In the procession which marched over the principal streets of Newport, 45 automobiles were in line headed by the Pickens brass band. The autos were left in line on Front Street while the people marched on foot to Bay beach where the feast was served. A word of explanation as to how the baking is done might be of interest to some. A pit is dug in the sand about six by ten feet, two feet deep, the bottom of which is covered about a foot deep with cobbles and on top of this a fire is built with good dry wood as the stones must be well heated. This takes from three to four hours. When this is done the fire and coals must be raked off, then sea weeds is placed on the hot rock two or three inches deep and upon this are placed the clams, crabs, fish and beef and potatoes and then on top of this is spread a tarpaulin which is then all covered over with sand and allowed to remain two or three hours or until every article is thoroughly cooked. You can know this by occasionally tasting the articles. By this process everything is cooked in its own juices and has a natural flavor. All who tasted the cooking pronounced it as being the finest. It is the old Indian style of baking camas, with heat and steam. A clam bake will always get a crowd at Newport.

Interesting speeches were made by Dean Straub of the State University, Rev. E. T. Simpson and J. H. Fitzgerald, promoter of the road. Hon. S. G. Irvin was called on for an address but Mr. Irvin said his physician had ordered him not to make any speeches now on account of the bad condition of his lungs. Prof. Straub said the building of a railroad to a city would raise the value of property fifty per cent. Mr. Simpson also urged the building of the road as the best means of increasing the value of property and bringing about needed prosperity. Mr. Fitzgerald gave a good talk on the importance of building the road to open up the vast resources of the country. The first \$25,000 have been subscribed, the contract signed and a promise made that within 30 days the work on the road would be commenced. The first thing to do is to get a permanent survey and the right of way through the whole distance. This demonstration was gotten up by the promoters in the interest of the Portland and West Coast Railroad and Navigation Company, in two days and was a big success. The proposed road runs through one of the finest belts of standing timber in Oregon and also through one of the richest sections of the Coast Range of mountains. The road will be built at some future time, but when, no one knows. The first \$25,000 have been subscribed, the agreement signed up and the promise made that the work of construction will commence in a short time.

The sudden death of Allen Logan in a Portland hospital came as a shock to this community. It was found by an autopsy that his death was caused by a tumor on the brain. He had been ailing for a long time. He

was born and raised in Lincoln county. He has three sisters in this county, Mrs. Ira Hampton and Mrs. Z. C. Copeland of Newport and Mrs. Alice Waugh of Toledo. His father and step-mother live at Baker City. He was married to Miss Daisy Coffin of Portland ten years ago, she still survives him. The remains were buried in Aberdeen, Washington. He was prominent in the timber and logging business and was a prominent member of the Elk Lodge under whose auspices the funeral was conducted. He was 34 years of age. Mrs. Hampton and Mrs. Waugh attended the funeral.

A large number of Newport people are attending court in Toledo this week. A number of the attorneys spend their nights at Newport, guests of the Abbey. Judge Hamilton's family is taking a vacation at Newport. The cottages are rapidly filling up.

Mrs. Sara Pierre formerly of Siletz came over Saturday from Portland to spend her vacation at Newport. Miss Pierre is a graduate of a Philadelphia hospital and with her partner, Miss Buckley, has a private sanatorium on Ankey Street, Portland, Oregon. These two ladies are doing a good business and manage it all themselves.

Everyone has fine potatoes and gardens, more corn was planted than ever before and some fine corn can be seen, in our little valley. Diversified farming is generally practiced and the cream can is the most popular way our exports go to market. We have two cream routes, our merchant, I. R. There will be amusements for young and old, so come and see what can be grown in this part of Lincoln county. Bring well filled baskets with things to eat hot coffee will be served free.
